Hello,

I've received your new Plan of Operations proposal for the White Tiger site. The previous proposed Plan of Operations case file number for the site was UTU-86063. As Federal regulations require, I will inform you within 30 days if your new proposed Plan of Operations for the site is complete.

This site in Lawson Cove is in close proximity to BLM Community Pit UTU-63417. Please be certain to complete a purchase contract in advance for any material that you remove from the Community Pit.

There remains a common-uncommon variety issue at this site, as you probably know. That is a separate issue from Plan completeness. I will refer that issue to other BLM specialists.

Best wishes always,

Duane Bays
